Applicant's election of claims 1-3 in the reply filed on July 29, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claim 4 to an invention non-elected without traverse. Accordingly, claim 4 has been cancelled.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose bonding the large-diameter metal wire connected to the large-diameter ball to the small-diameter ball by stitch bonding, and then separating the large-diameter metal wire from the small-diameter ball as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
